

DHOLE PATIL EDUCATION SOCIETY'S
DHOLE PATIL SCHOOL FOR EXCELLENCE
ANNUAL REPORT 2025-2026

Introduction: Dhole Patil School For Excellence was established in the year 2017 with the aim to impart quality education with a strong value-based education program to the young minds. Our education model is based on the thought 'Happy Schooling, Happy Children'.

This model helps attain optimal outcomes in the domains of physical and motor development, cognitive development, socio-emotional-ethical development, cultural development, development of communication and early language, literacy and numeracy. We focus on working with the social, emotional, cognitive and physical needs of young children in order to build a solid and broad foundation for lifelong learning and wellbeing.

Our model for education comprises of flexible, multi-level play and activity-based learning. We also work towards developing social capacities good behaviour, courtesy, ethics, personal and public cleanliness, teamwork and cooperation.

Our academics revolve around good concept building activities and students are prepared for life long learning and developing good life skills. Throughout the year students are assessed through written, oral and project-based evaluation. Our students are also encouraged to appear for competitive Olympiads which aims at cultivating Scientific Reasoning and Logical Ability among the students through a rigorous test.

In order to develop the aesthetic skills of the students we conducted many competitions throughout the year to develop confidence among our students.

Educational Approach:

- ✓ Focus on critical contemporary issues.
- ✓ **Emphasis on humanity and culture** in shaping environments that enhance life skills
- ✓ **Promotion of liberal, creative, and performing arts**

- ✓ Application-based and project-based learning at the center of the educational experience
- ✓ Introduction of the Sanskrit and German languages right from grade 1
- ✓ Competitive examinations are conducted to develop the competency level of the students.

Activities designed to build 21st-century skills: Critical Thinking, Creativity, Communication, and Collaboration.

Other important features include:

Foundation Stage

Our **Foundation Stage curriculum** emphasizes **holistic development**, aiming to build a strong base for lifelong learning through cognitive, social, emotional, and physical growth. Its key goals include developing **language and communication skills**, fostering **early literacy and numeracy**, nurturing **creativity and critical thinking**, promoting **physical development and healthy habits**, and encouraging a **positive self-concept** along with strong **social–emotional awareness**.

The curriculum is **customized, self-designed, and child-friendly**, thoughtfully crafted to align with the **vision of DPES**.

Primary, Secondary, and Senior Secondary

The school curriculum is **interwoven with a wide range of life skills activities**, ensuring balanced growth and real-world readiness. Its core objectives include:

- **Mastery of Subjects:** Achieving proficiency and in-depth understanding in key subjects such as languages, mathematics, science, and social science.
- **Skill Development:** Building integrated language skills—listening, speaking, reading, and writing—along with strong vocabulary and comprehension.

- **Critical Thinking:** Strengthening the ability to analyze information, solve problems creatively, and make informed decisions.
- **21st-Century Skills:** Incorporating essential modern competencies such as digital literacy, information literacy, and the effective use of technology for learning and personal growth.
